

# LNADA Follow-up Training Workshop

Day 2 — Session 4: Wrap-up & Mission-Week Bridge

**28 May 2026 | 14:15–15:00**

# Where we are

- Six signed artefacts so far across the workshop:
  - Restoration shortlist (D1S2)
  - Microdata triage XLSX (D1S3)
  - Document triage XLSX (D1S4)
  - Indicator decision (D1S4)
  - Lao translation review XLSX (D2S1)
  - 1 dataset fully restored + 4 hands-on in progress (D2S2 + D2S3)

This session **consolidates** them into one master commitments document.

# TOR delivery scorecard

Output	Status
Customised microdata template	Signed
Customised document template	Signed
Indicator template – international standard adopted	Signed
Lao translations reviewed	Reviewed; residual queue owned
Datasets restored	1 fully + 4 with metadata complete

**All four TOR objectives covered.** Finalisation continues post-mission.

# Master ownership matrix – overview

The matrix on screen has four parts:

<b>Part</b>	<b>What it captures</b>
<b>A.</b> Per-dataset restoration	1 demo + 4 hands-on datasets, owners, targets
<b>B.</b> Template residual	Yellow-flagged fields from D1S3 / D1S4
<b>C.</b> Lao translation residual	Items from D2S1 + post-workshop work
<b>D.</b> Mission-week handoffs	Fri 29 May → Fri 5 Jun events

**Working file (on screen):** *d2s4-mission-ownership-signoff.xlsx*

# A. Per-dataset restoration

<b>Dataset</b>	<b>Owner</b>	<b>Target</b>	<b>Status</b>
PHC 2005	(Trainer demo)	Mon 1 Jun	Done
LECS 2008 (III)	Participant A	Mon 1 Jun	-----
LSIS 2011	Participant B	Mon 1 Jun	-----
LAC 2010-11	Participant C	Mon 1 Jun	-----
EC 2013	Participant D	Mon 1 Jun	-----

Default target: **Monday 1 June** (before the deployment session).

## B. Template residual items

Fields parked for post-workshop refinement:

- Yellow-flagged fields from the D1S3 microdata triage
- Yellow-flagged fields from the D1S4 document triage
- Field examples needing LSB-specific replacement
- Help-text paragraphs needing review

**Owner:** lead statistics editor + national consultant pair.

**Default target:** end June 2026.

## C. Lao translation residual

From D2S1's review queue:

- Glossary terms beyond the top 20
- Help-text paragraphs across both templates
- Variable-level labels (per dataset)
- Editor + admin interface translations

**Owner:** statistics editors lead; IT consultants for interface strings.

**Default target:** end June 2026 (UI) / end July 2026 (long-form text).

## D. Mission-week handoffs

<b>Date</b>	<b>Event</b>	<b>Bring from this workshop</b>
<b>Fri 29 May</b>	Portal-firm meeting	Restoration status, open portal questions
<b>Mon 1 Jun</b>	Production deployment	Signed templates, lessons learned
<b>Tue 2 Jun</b>	SDMX / .Stat Suite intro	Indicator-decision context
<b>Wed 3 Jun</b>	SDMX implementation work-plan	LSB SDMX roadmap
<b>Fri 5 Jun</b>	Wrap-up with LSB management	Full delivery scorecard

# Sign-off – workshop wrap-up

## Signed

---

All workshop artefacts captured in the master matrix \_\_\_\_\_

---

Per-dataset ownership confirmed (Section A) \_\_\_\_\_

---

Template + Lao residual owners assigned (Sections B + C) \_\_\_\_\_

---

Mission-week handoffs acknowledged (Section D) \_\_\_\_\_

---

Date 2026-05-28

Sign-off block at the bottom of the master XLSX.

# Where to find everything

- **Training website** – slides, schedule, handouts (15 days online)
- **Signed XLSX artefacts** – all five sign-off sheets (D1S2, D1S3, D1S4, D2S1, D2S4)
- **Customised templates** – deployed on the Metadata Editor
- **Restored datasets** – on the test catalog

Download materials from the training website today.

# Thank you

To the participants – thank you for the focus.

To Saysoth and Vongthasone – thank you for the IT-side work.

To LSB management – thank you for the participant time.

**Mission continues Friday 29 May with the portal-firm meeting.**
